

*We love Coffee, Gin and Craft Beer*

---

## COFFEE

---

We're passionate about great coffee, where it comes from, how it's grown and most of all how it tastes. We're on a journey to offer you the best coffee, made the right way for the best price. Which is why we are kicking off our coffee range with the award winning Coaltown Coffee Roasters from Ammanford.

We are going to be serving their single origin bean from Palestina, Columbia using ceramic drip filters, chemex jugs and gooseneck kettles. We're excited too :)

---

## GIN

---

We love a good gin, and there's so many around so we've chosen some of our favourites including Da Mhile, Chase, Monkey 47, Hendricks and Tanqueray.

---

## CRAFT BEER

---

We can't get enough of all the wonderful concoctions local brewers are coming up with so we're going to try and support as many of them as we can.

To start with we have decided to stock Castlegate, Mantle, Tomos Lilford, Moor, Beavertown and Wiper and True.
